B&O Historical Society Company Store – Special Offerings – Third Qtr 2018

<p align="center">Item 74102 Fifty Years of Rolling Stock - to 1954 Sale price \$19.80</p>	<p>Fifty years of Rolling Stock Rosters, 1905-1954</p> <p>The early years of the period covered have a report quite often, perhaps every year or two; but they are rather thin. The reports of greater interest, from the 20's, very much follow the dates of the Form 6 documents. The reports of 1935, 1941, 1948, and 1954 should provide information for modelers interested in those eras.</p> <p>See Item 74102 on our Company Store website, under Equipment.</p>
<p align="center">Item 74177 Freight Car Diagrams Coil, Flat, & Gon Cars Sale price \$19.80</p>	<p>Chessie Freight Car Diagrams, 1977. Vol 1, Coil, Flat, & Gondola Cars</p> <p>1977 may be too late for many modelers, but much of the equipment listed was on the railroad for many years before that date. Class by class these cars are presented as drawings with dimensions and other data separated as General, Car Body, Truck, and Miscellaneous.</p> <p>See Item 74177 on our Company Store website, under Equipment.</p>
<p align="center">Item 75158 Freight Schedule & Classification Book Sale price \$21.60</p>	<p>Chessie Freight Schedule and Classification Book No. 23, 1970 with 1975 rev</p> <p>Again, 1975 may be late, but this booklet illustrates what scheduling was used. It includes a 'spider web' diagram of the numbered trains running from point to point. In detail, it describes the classification used at each point for the destination of the car.</p> <p>See Item 75158 on our Company Store website, under Freight Operations.</p>
<p align="center">New Item</p> <p align="center">Item 10168 B&O Power, in Color Vol 2 Sale price \$53.95</p>	<p>B&O power, in Color, Vol 2, by Bob Withers</p> <p>This book is the second in a Morning Sun series intended to cover all diesel locomotives of the B&O.
