

Baltimore and Ohio Railroad Historical Society

Is Growing! We're Over 1/2 Way There

Eight years ago, we thought we had enough storage for twenty years. With the large numbers of contributions and expected future ones, we feel we need additional storages space. After investigation with Carroll County Government, we have decided to build a storage building on the back-parking lot of our property. Dimension for the new building will be 20' by 60'. There is a potential for a foundation to contribute matching funds for this addition. So, a fund-raising program is now starting for the expected \$100,000 required to complete the building and install shelving. Therefore, we are continuing our naming program for the various storage devices used in the society's facilities. The rooms have already been named. But your can still have your name on:

File Cabinet	(Over 100)	\$250
File Cabinet Drawer	(Over 500)	\$75
Storage Shelf	(Over 45)	\$75
Name on Outside of New Building		\$25,000
